Federal rates; adjusted federal rates, adjusted federal long-term rate and the long-term exempt rate. For purposes of sections 382, 642, 1274, 1288, and other sections of the Code, tables set forth the rates for December 2010.

Rev. Rul. 2010-29

This revenue ruling provides various prescribed rates for federal income tax purposes for December 2010 (the current month). Table 1 contains the short-term, mid-term, and long-term applicable federal rates (AFR) for the current month for purposes of section 1274(d) of the Internal Revenue Code. Table 2 contains the short-term, mid-term, and long-term adjusted applicable federal rates (adjusted AFR) for the current month for purposes of section 1288(b). Table 3 sets forth the adjusted federal long-term rate and the long-term tax-exempt rate described in section 382(f). Table 4 contains the appropriate percentages for determining the low-income housing credit described in section 42(b)(1) for buildings placed in service during the current

month. However, under section 42(b)(2), the applicable percentage for non-federally subsidized new buildings placed in service after July 30, 2008, and before

December 31, 2013, shall not be less than 9%. Table 5 contains the federal rate for determining the present value of an annuity, an interest for life or for a term

of years, or a remainder or a reversionary interest for purposes of section 7520. Finally, Table 6 contains the 2011 interest rate for sections 846 and 807.

Section 1274A.—Special Rules for Certain Transactions Where Stated Principal Amount Does Not Exceed \$2,800,000

26 CFR 1.1274A-1: Special rules for certain transactions where stated principal amount does not exceed \$2,800,000. (Also sections 483, 1274.)

Section 1274A – inflation adjusted numbers for 2011. This ruling provides the dollar amounts, increased by the 2011 inflation adjustment, for section 1274A of the Code. Rev. Rul. 2010-2 supplemented and superseded.

Rev. Rul. 2010-30

BACKGROUND

In general, sections 483 and 1274 determine the principal amount of a debt instrument given in consideration for the sale or exchange of nonpublicly traded property. In addition, any interest on a debt instrument subject to section 1274 is taken into account under the original issue discount provisions of the Code. Section 1274A, however, modifies the rules under sections 483 and 1274 for certain types of debt instruments.

In the case of a “qualified debt instrument,” the discount rate used for purposes of sections 483 and 1274 may not exceed nine percent, compounded semiannually. Section 1274A(b) defines a qualified debt instrument as any debt instrument given in consideration for the sale or exchange of property (other than new section 38 property within the meaning of section 48(b), as in effect on the day before the date of enactment of the Revenue Reconciliation Act of 1990) if the stated principal amount of the instrument does not exceed the amount specified in section 1274A(b). For debt instruments arising out of sales or exchanges before January 1, 1990, this amount is \$2,800,000.

In the case of a “cash method debt instrument,” as defined in section 1274A(c), the borrower and lender may elect to use the cash receipts and disbursements method of accounting. In particular, for any cash method debt instrument, section 1274 does not apply, and interest on the instrument is accounted for by both the borrower and the lender under the cash method of accounting. A cash method debt instrument is a qualified debt instrument that meets the following additional requirements: (A) In the case of instruments arising out of sales or exchanges before January 1, 1990, the stated principal amount does not exceed \$2,000,000;

(B) the lender does not use an accrual method of accounting and is not a dealer with respect to the property sold or exchanged; (C) section 1274 would have applied to the debt instrument but for an election under section 1274A(c); and (D) an election under section 1274A(c) is jointly made with respect to the debt instrument by the borrower and the lender. Section 1.1274A-1(c)(1) of the Income Tax Regulations provides rules concerning the time for, and manner of, making this election.

Section 1274A(d)(2) provides that, for any debt instrument arising out of a sale or exchange during any calendar year after 1989, the dollar amounts stated in section 1274A(b) and section 1274A(c)(2)(A) are increased by the inflation adjustment for the calendar year. Any increase due to the inflation adjustment is rounded to the nearest multiple of \$100 (or, if the increase is a multiple of \$50 and not of \$100, the increase is increased to the nearest multiple of \$100). The inflation adjustment for any calendar year is the percentage (if any) by which the CPI for the preceding calendar year exceeds the CPI for calendar year 1988. Section 1274A(d)(2)(B) defines the CPI for any calendar year as the average of the Consumer Price Index as of the close of the 12-month period ending on September 30 of that calendar year.
